

Swiss-European Mobility Programme SEMP

SEMP is the Swiss Programme for Erasmus+ for higher education. It not only funds outgoing mobility for students and higher education institution staff, but also incoming mobility from Europe to Switzerland.

Easy

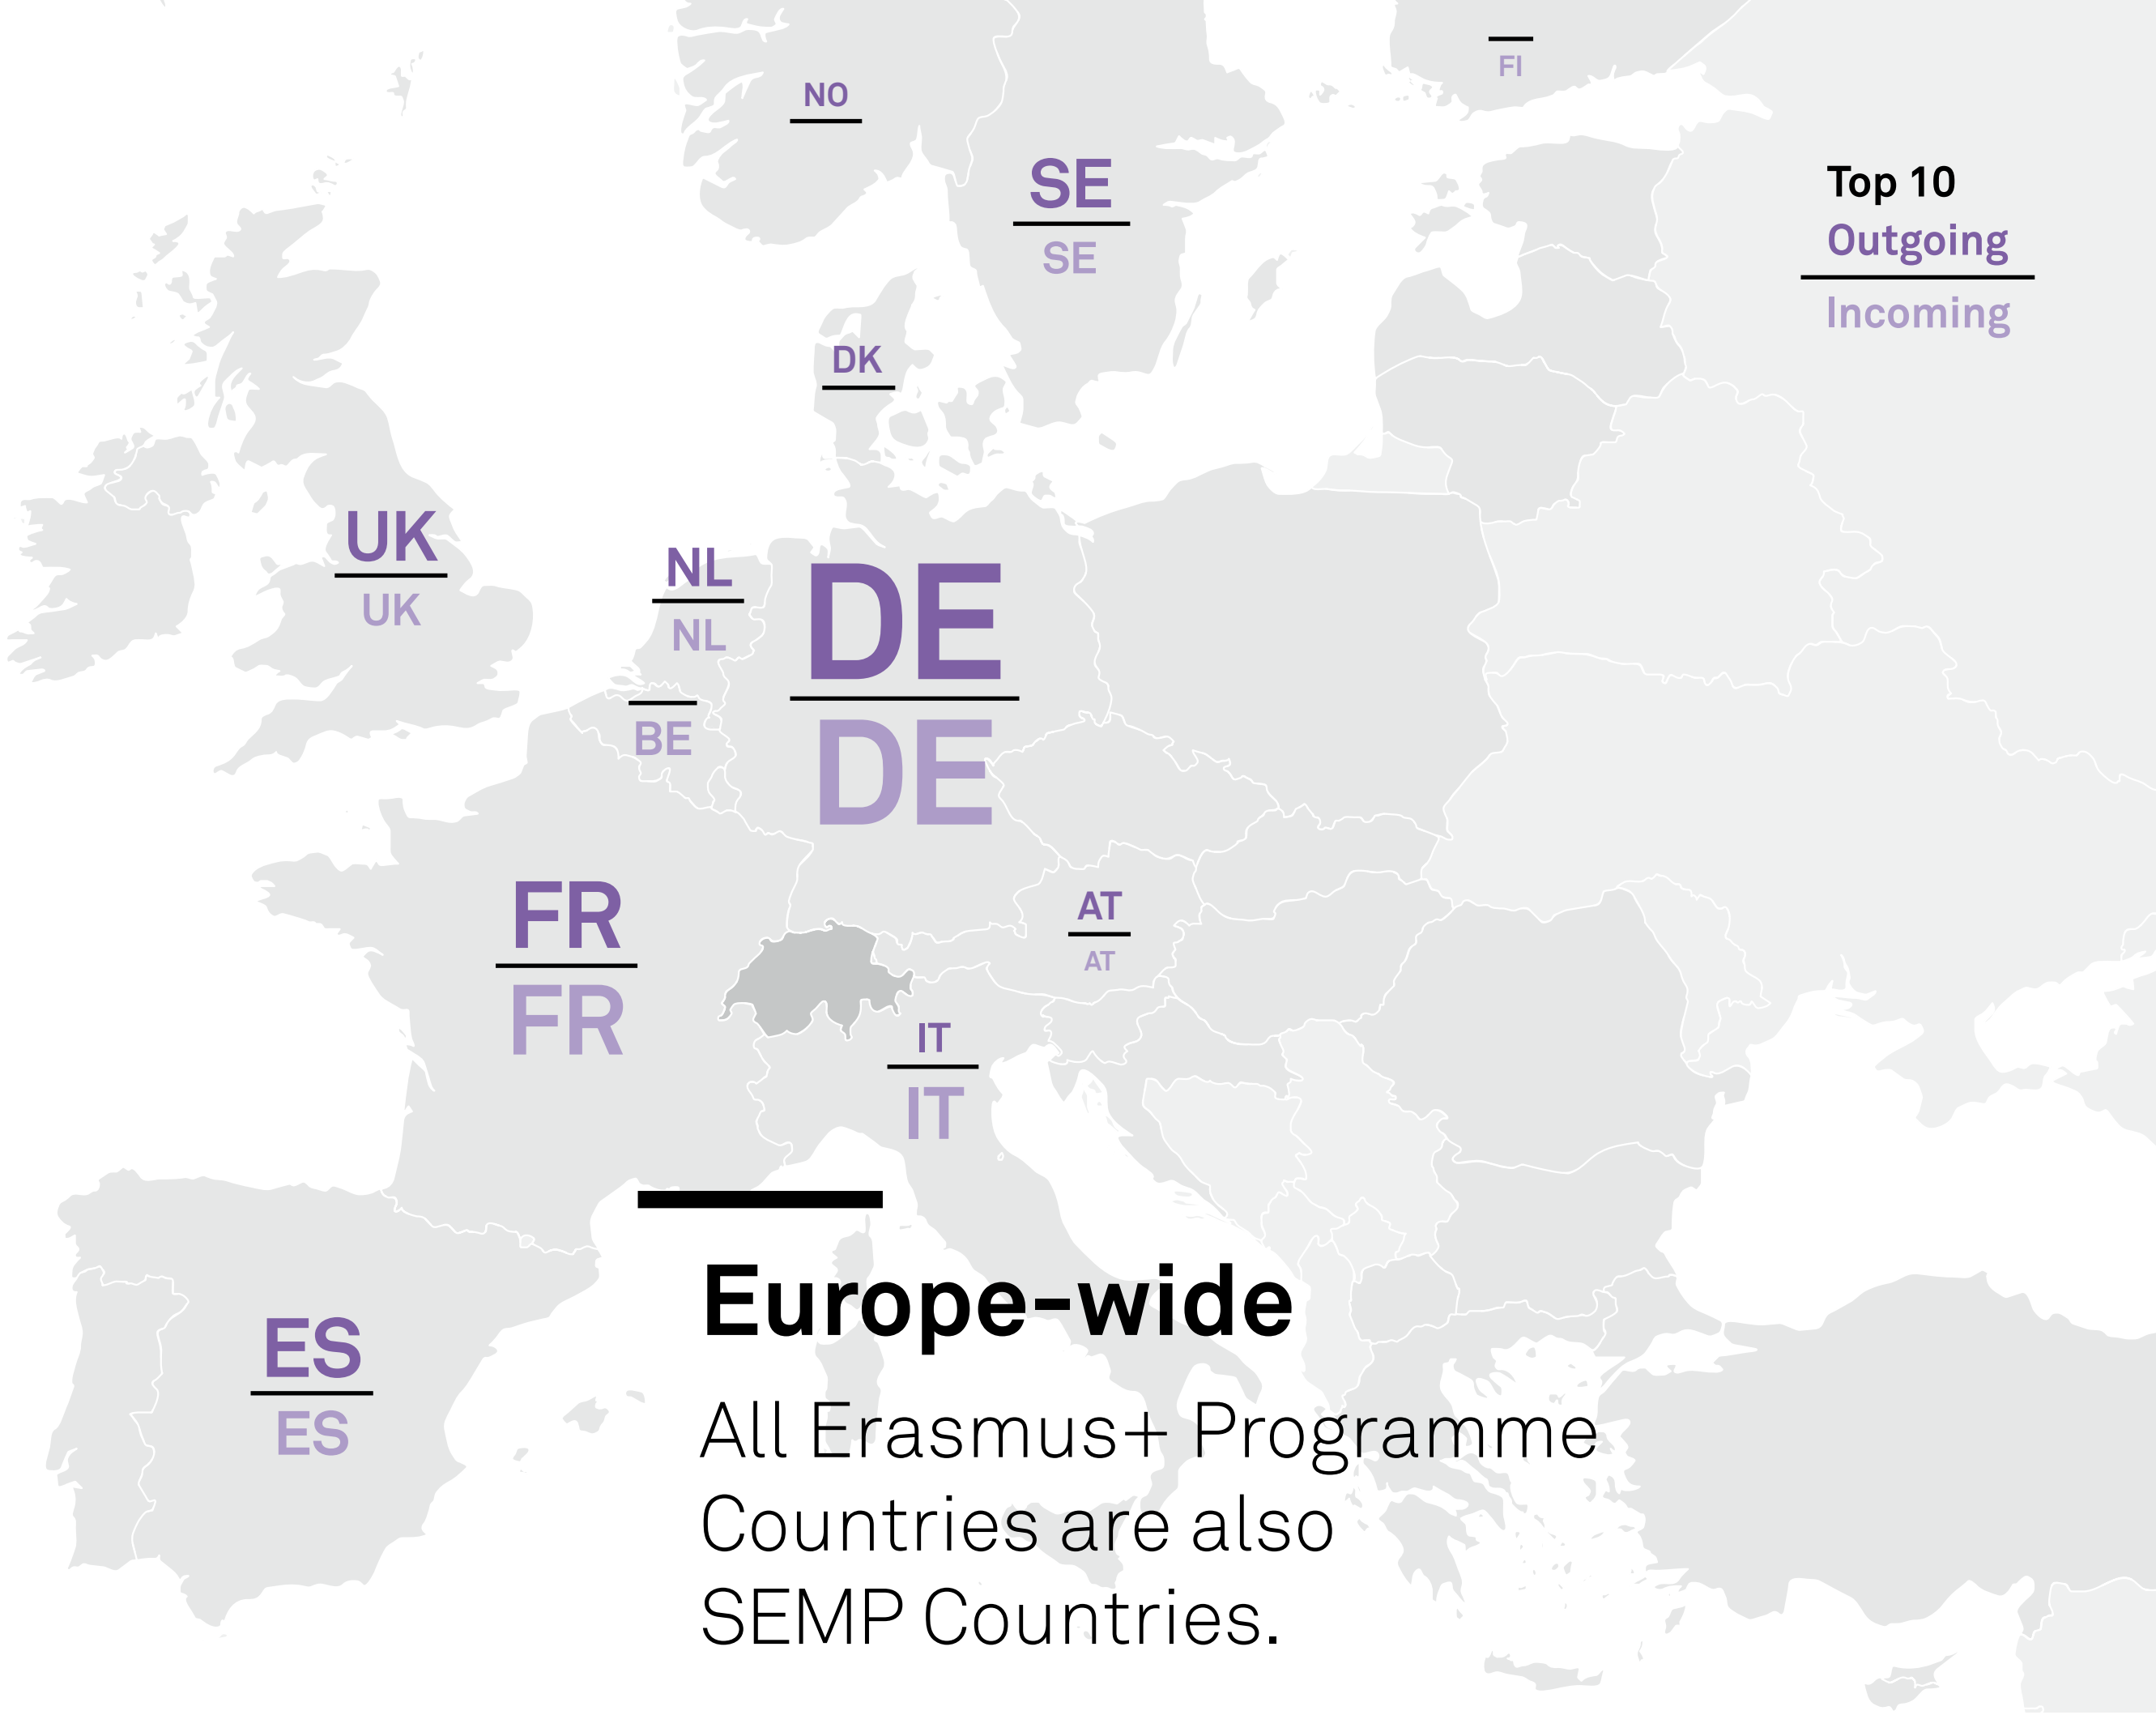

For credit mobility, SEMP works similarly to Erasmus+, which means partner institutions can act internationally within a familiar framework.

High quality

SEMP allows students and staff to be sent to top educational institutions and highly qualified people to spend time at your institution.

Europe-wide

All Erasmus+ Programme Countries are also SEMP Countries.

SEMP higher education institutions 2018/19:

14

Universities

12

Universities of Teacher Education

8

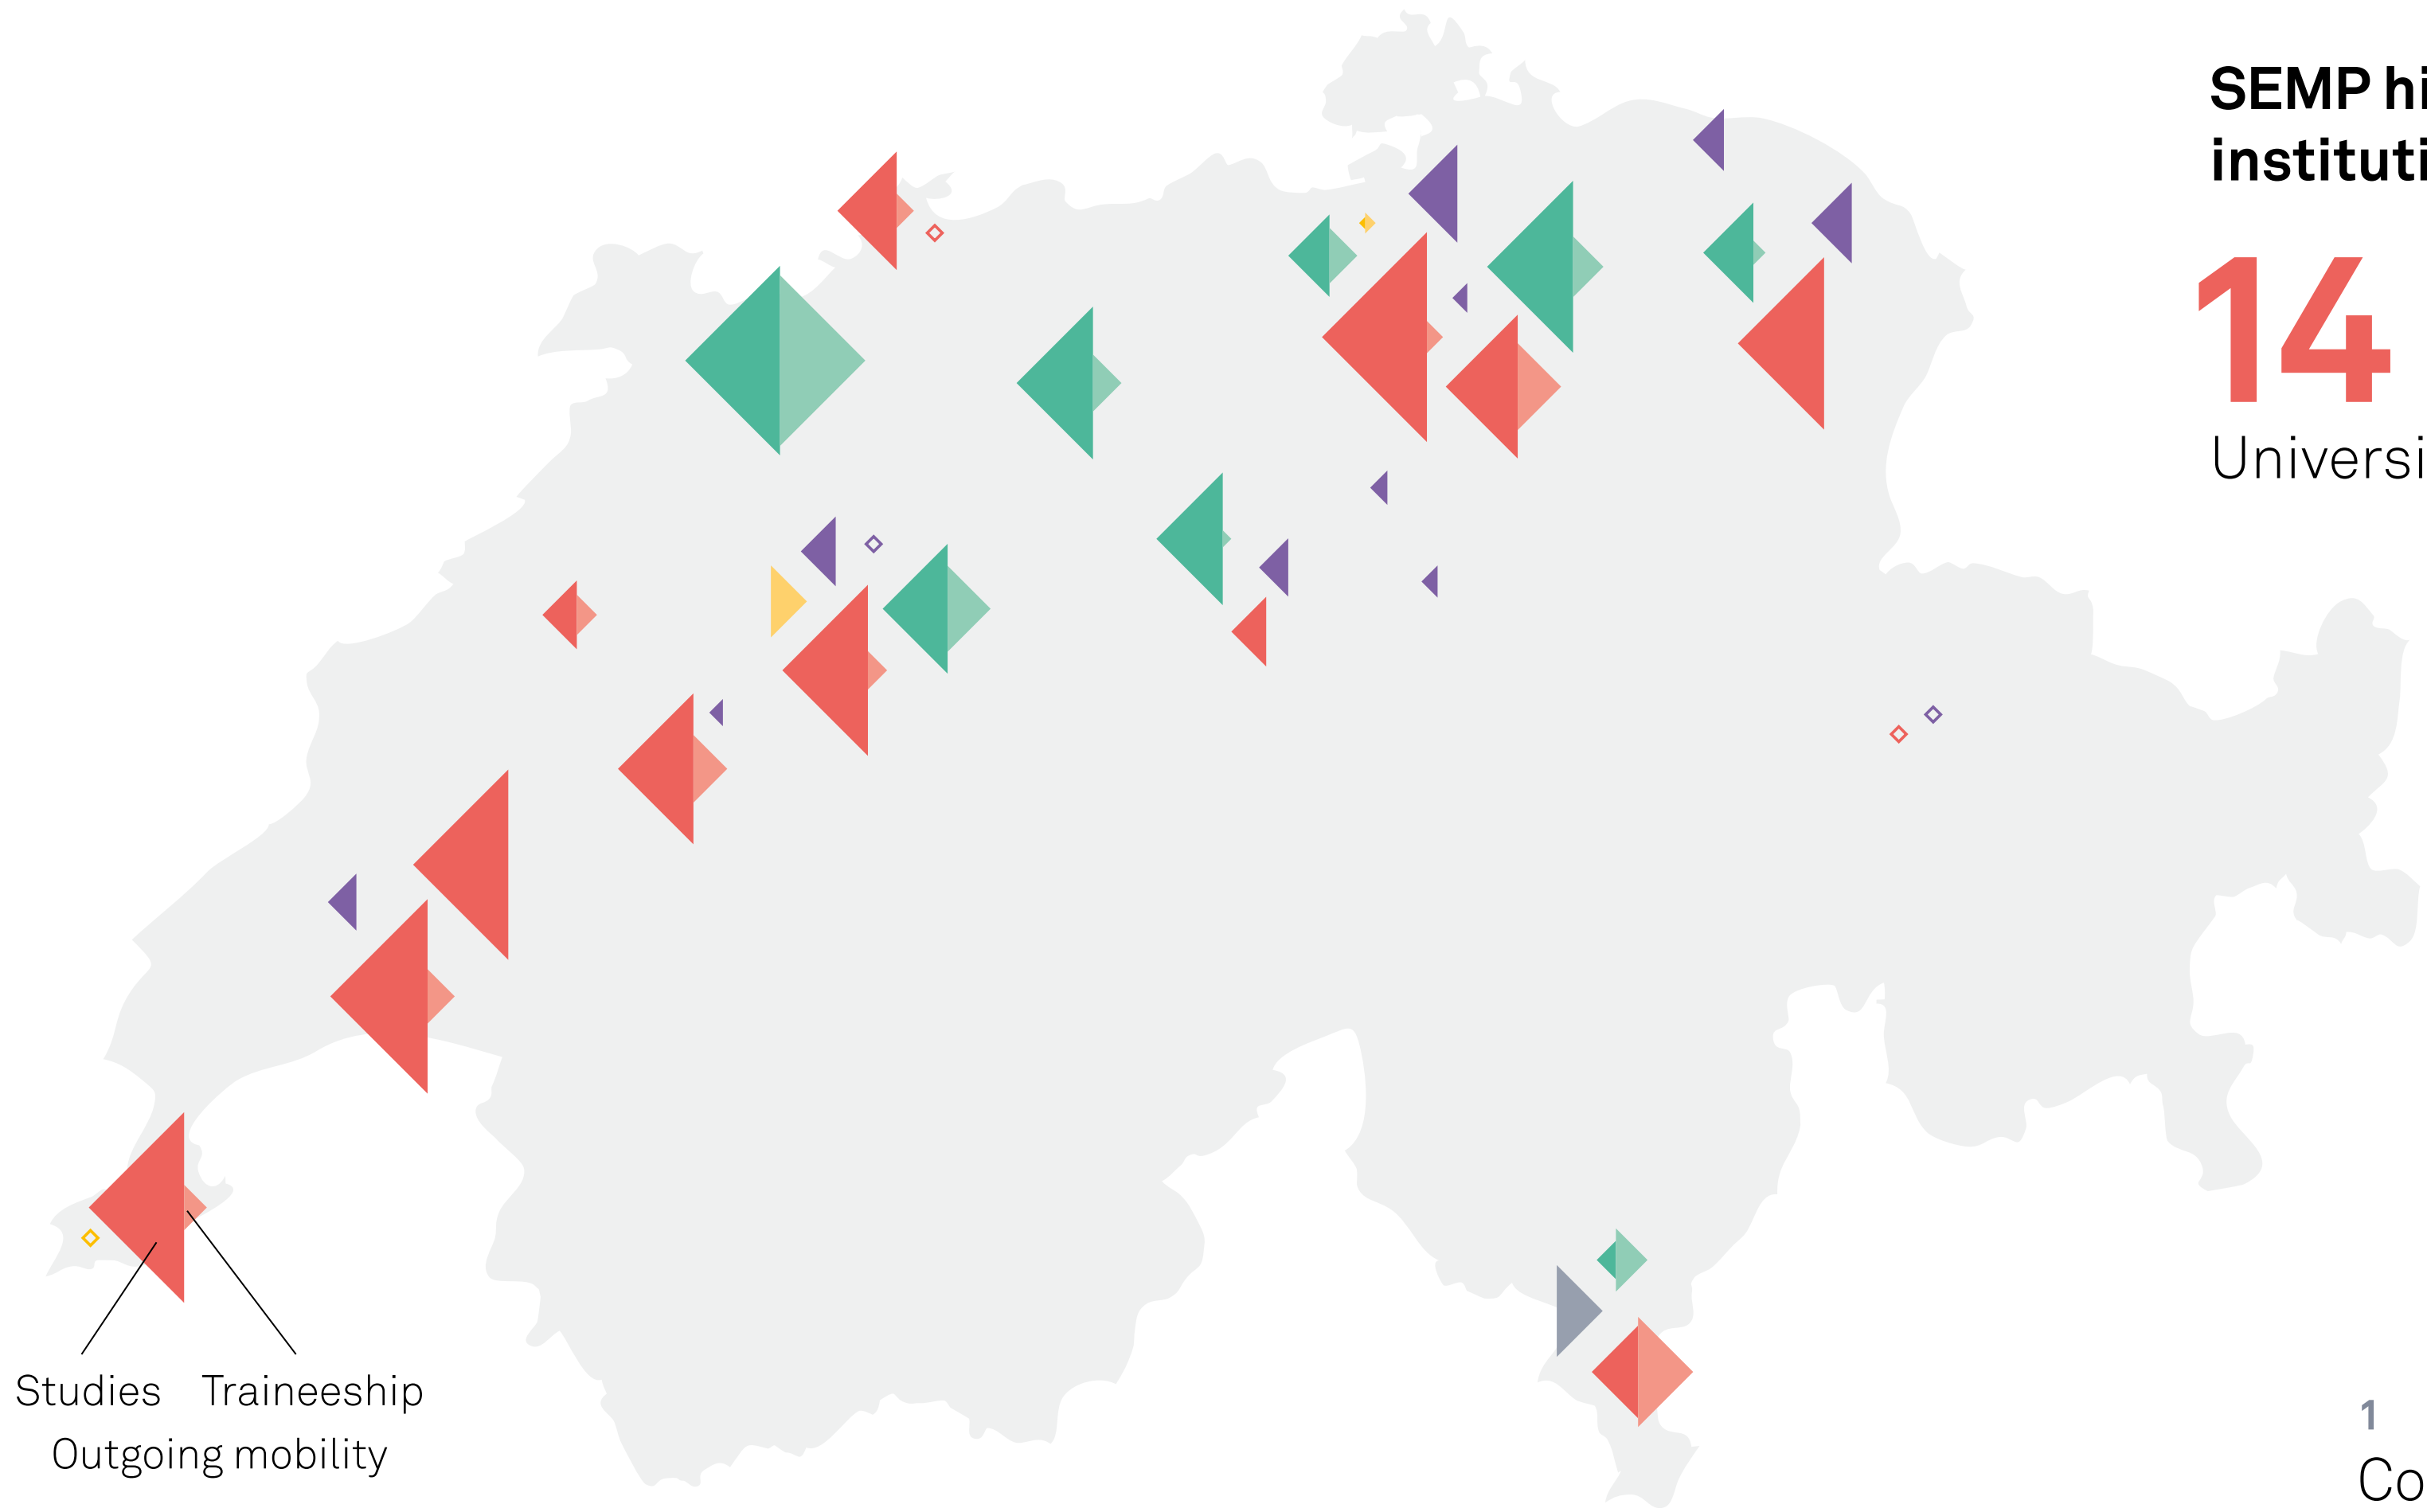

Universities of Applied Sciences

3

Colleges of Higher Education

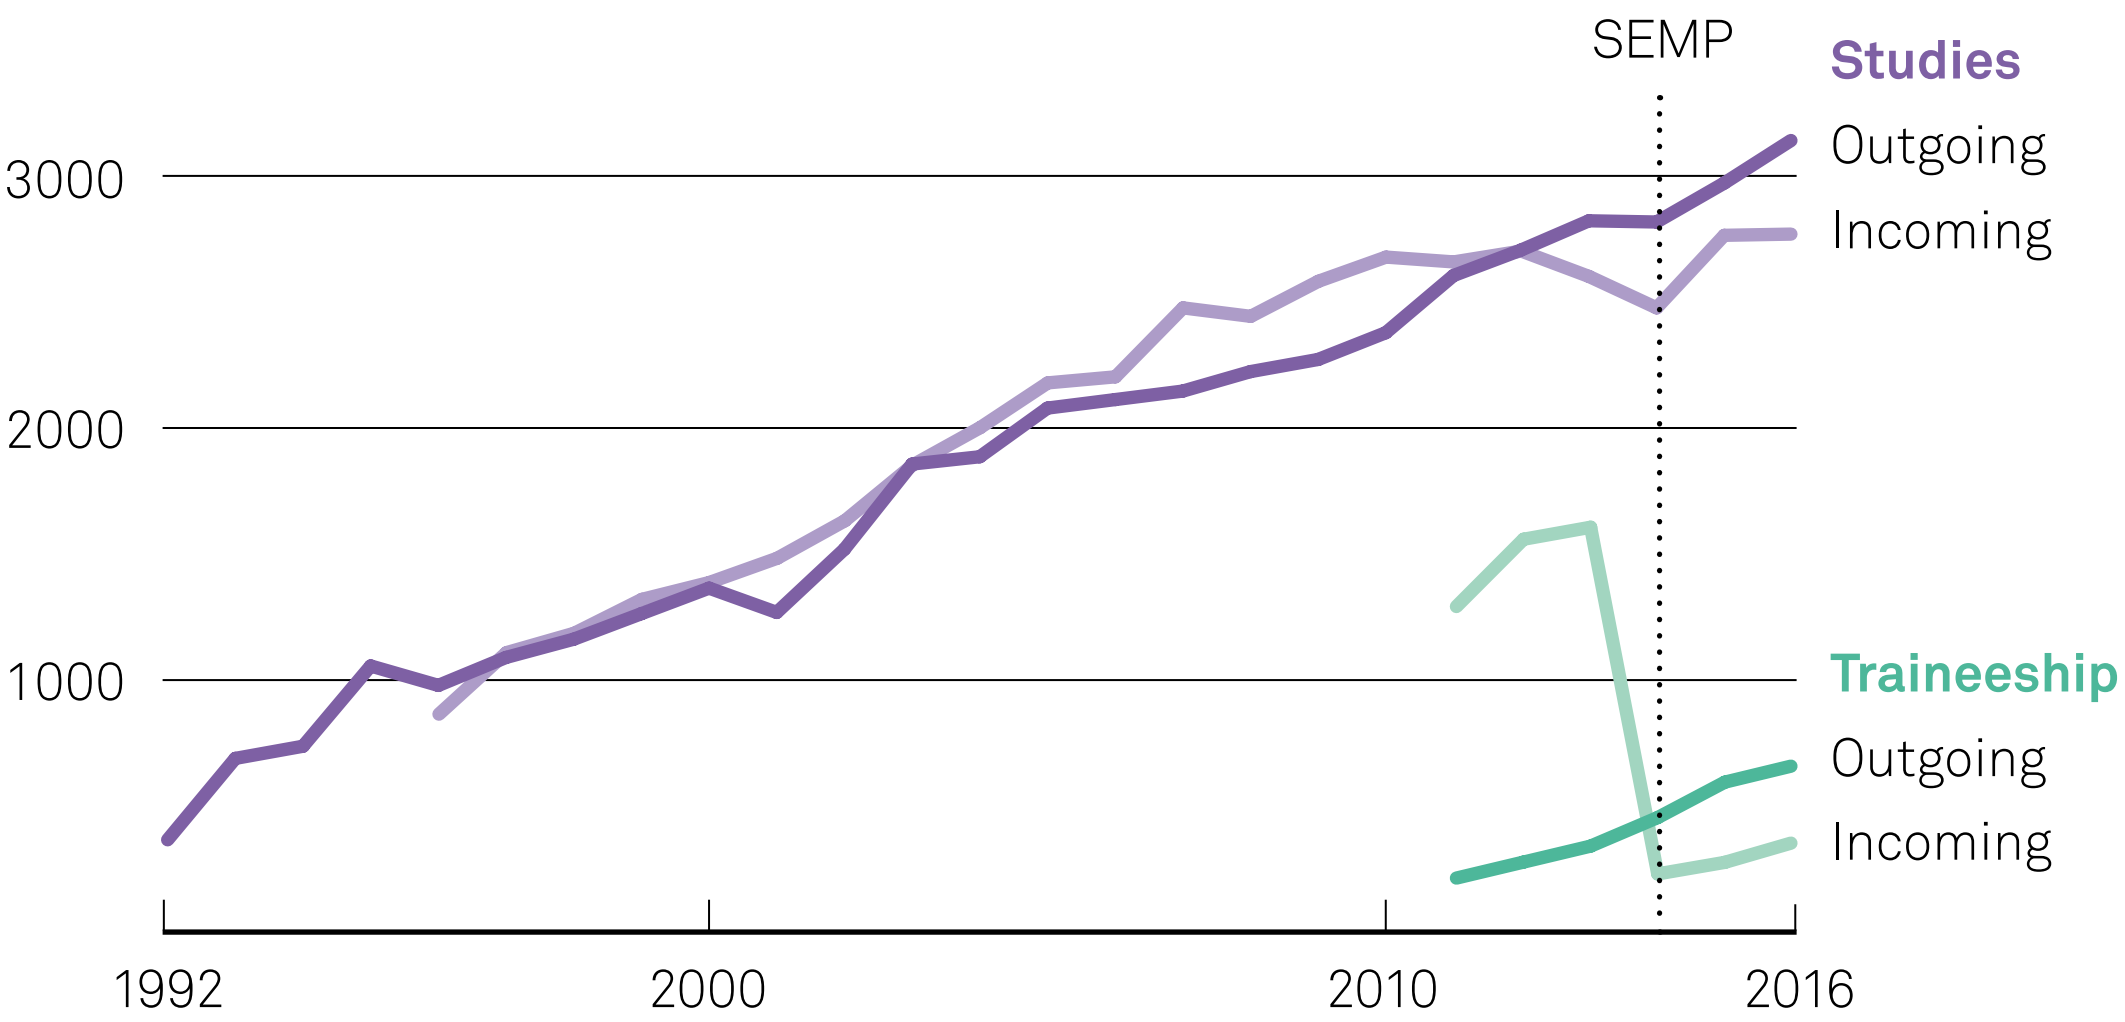

1

Consortium

Long-standing mobility tradition

Switzerland has been promoting mobility with Europe for over 25 years and seen ever-increasing mobility numbers.

About

Movetia is the national agency for exchange and mobility. We provide information about the Swiss programmes and connect you with the right people and institutions.

How does it work?

- 1 Contact a Swiss SEMP institution or Movetia
- 2 Sign an interinstitutional agreement with the Swiss SEMP institution
- 3 Start promoting student and staff exchanges

Swiss Funds for International Cooperation in Higher Education

Switzerland promotes and strengthens international cooperation in Europe and worldwide with two programmes.

Swiss Programme for Erasmus+

Supports the cooperation with higher education institutions in Erasmus+ programme countries and provides funding for the Swiss participation in European Strategic Partnerships and Knowledge Alliances.

International Programme 2018–2020

Supports the cooperation with higher education institutions in countries outside of Europe and provides funding for innovative projects worldwide.
