Stamp of the bank + signature of the bank's  
representative<sup>2</sup>

Date + signature of account holder  
(mandatory)

- 1 Name or title under which the account was opened - not the name of the account holder.  
2 It is better to attach a copy of a recent bank statement. Please note that the account statement must contain all the data listed under "Account name" and "Bank details". In this case, the bank's stamp and the signature of its representative are not required. The signature of the account holder is mandatory in any case.
