Explanations

- **Travel costs** : Flat-rate travel allowances help cover the costs of the return journey from the place of residence to the location where the activity takes place. As a rule, public transport should be used.
- **Organisation costs** : The flat-rate for organisational support is a contribution to the applicant institution to cover project costs such as material, dissemination and information events.
- **Special needs costs**: Up to 100% of the costs associated with the participation of people with disabilities may be claimed, e.g. special transportation for wheelchair-users. The estimated amount should be requested in the application and the final expense claim should be based on actual costs as per supporting documents.
- **Subsistence costs**: These allowances are designed to cover the personal expenses of the participants, such as accommodation and meals.
- **Linguistic support costs**: Where there is a justified need, a flat-rate allowance to improve language skills (for selected languages) before or during the stay can be applied for (only on presentation of proof).
