Movetia is the national agency for the promotion of exchange, mobility and cooperation in all education sectors – in Switzerland, Europe and worldwide. Mandated by the Swiss Confederation and the Cantons, Movetia encourages and supports projects in school education, vocational education and training, higher education, adult education and extracurricular youth work.
The mobility programme within the Swiss Programme to Erasmus+ designed for the higher education level is called the Swiss-European Mobility Programme. SEMP offers Swiss universities and colleges of higher education the opportunity to sponsor students, lecturers and staff for stays abroad in one of 33 European Erasmus+ Programme Countries (outgoing mobility). If students or higher education institution staff come to Switzerland from abroad, they are also supported by SEMP as ‘incoming’. This practice guarantees exchange based on reciprocity between institutions of higher education.

The budget of CHF 19.7 million in the academic year 2018/19 makes SEMP the leading national mobility programme. It is implemented by Movetia and 36 Swiss educational institutions. The legend on the fold-out page lists all participating institutions. The following statistical information relates to outgoing mobility. Where incoming figures are declared, this is noted accordingly.
SEMP supports four types of mobility. Whereas a classic semester abroad for a student lasts on average 6 months and earns 35 ECTS, traineeships with an average duration of 5 months give students their first work experience. All SEMP students receive a financial grant of CHF 1’600/semester or CHF 440/month of traineeship.

Higher education institution staff can pursue lecturing activities at a foreign partner institution or professional development courses. The average length of stay levels at 4 days. Financial support is provided on a flat-rate basis for travel and subsistence costs.
